

Creation Faith in an Evolutionary World Part 3

A Bible Study for the believer who wants to think that they can disbelieve Biblical creation, but believe the rest of the Bible.

Concluding questions:

- 1) Can the creation narrative be separated from the rest of the biblical text?
- 2) Can one accept the truth of the scriptures in one category, but reject them in another?
- 3) Did God mislead us or lie when he revealed His creative designs and actions through His Word?
- 4) Can God be the sovereign God of the universe who will be our Lord and judge if He is, indeed, not the Creator?
- 5) Can you truly be a faithful servant of Christ if you doubt His word and his work?
