

Sin & Rebellion

Sin is rebellion against God and his divine design for us.

And everyone has sinned.

Sexual rebellion against God is not new.

Sexual rebellion is an outward signal that the heart is in spiritual rebellion,

Neither cultural norm nor governmental laws have the right to change God's divine design.

The farther you live away from God's divine design for human sexuality, the harder your life will be.

To live in complete rebellion against God without coming to repentance and faith will eventually end up in your destruction.

Our response is to lovingly demonstrate there is a God, he is our Creator, he has a plan, and Jesus is his solution to return you to right relationship with him.
