Father's Day
The Biblical Blueprint for Fathers

There is an actual divine design for fatherhood.

Dads are meant to do three things in regards to their children.

First, fathers are to provide for their children.

- You must provide them with a sense of belonging.
- You must provide them with a sense of worth.
- You must provide them with a sense of competency.

Second, fathers are to protect their children.

- You must work to protect them from themselves.
- You must strive to protect them from the world.
- You must fight to protect them from Satan.

Third, fathers are commanded by God to present their children.

- You are to present Christ to them.
- You are to present them to Christ.
