How do you help someone who is in trouble?

1. It all starts with compassion.
2. You can't do it from the other side of the street.
3. Most people do not need to be scolded for being in trouble.
4. When someone is placed in your path, consider it a divine appointment.
5. Triage—take care of the urgent—then get to the important.
6. It's going to require sacrifice.
7. Your actions cannot be predicated upon the results.
